

Application

Emergency Dept: Triage, Fast Track, etc

Surgical Services: Endo, Surgery, etc.

A versatile chair to streamline medical examination, procedures and recovery across various hospital departments.

Key Benefits

Save Space: Fit more chairs in the same space by increasing throughput with faster recoveries from patients sitting up right.

Infection Control: Smooth, gap free platform aids cleaning and helps prevent fluid ingress to meet the highest infection control standards.

Supercharged: Keep things moving with long-life, cordless, fast-charge battery packs that work all day.

Durable and Reliable: Peace of mind with a lifetime of guided support, easy maintenance, and fast guaranteed parts.

Contour Recline

Low and safe

Excellent 18 inch low height with fold-under drop-sides.

The ultra-low height is combined with drop-sides that glide down vertically under the chair top to provide safe access with no protrusions to catch on the patients legs or clothes.

Easy egress

Forward tilt facilitates getting on and off.

For aged or disabled patients, a gentle incline and the long drop-side armrests may assist in safer transfer.

Lies flat

The backrest and leg rest move independently or together from chair to bed.

You now have the flexibility of sitting a patient up to almost 90 degrees or lying down completely flat.

Head and foot tilt

A generous 15 degrees top tilt both directions.

Position a patient how you need them or quickly lower their head down (and feet up) in an emergency.

Smart transfer

Conveniently stored handles unfold for staff friendly transportation.

Lock in the double steer system, unfold the push handles and move forward effortlessly on the large castors. The unique handle design correctly positions the carer while preventing unwanted forces being applied directly to the patient.

Wide option

6 inch wider top option available.

Change the seat width from 25.6 to 31.6 inches wide to easily accommodate larger patients. Use our range of colour coding choices if required to assist in quick identification.

Clear handset

Large simple functions with colour assistance.

Position the patient quickly and easily with the touch of a button - either by independently moving sections or applying one touch contouring.

Specifications

Size: 30.7 x 45.3 inch overall (68.9 inch lying flat)

Seat width: 25.6 inch wide seat with 4 inch wider option available with 4 inch thick premium, removable mattress

Height Range: 18 - 33 inch height range with lie-flat and forward / reverse tilt
